WENDY FAIRFIELD

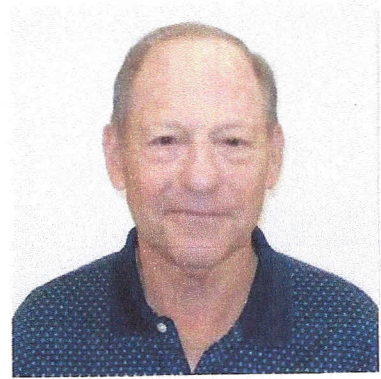

Wendy Fairfield is President of The Fairfield Group and founding member of OM Partners.

Wendy Fairfield has over 20 years of global experience as a strategic consultant and executive leader. Clients and employers include Ernst & Young, Dell, Johnson & Johnson, HCC Global Financial Products, World Fuel Services, Dupont, Bulova and many others.

Wendy specializes in complex problem solving and solution execution, and has innovative, broad-based international experience within IT, Strategic Analysis, Finance, Development, Process Improvement, Supply Chain and Operations areas, with extensive global travel and success in international relationships. Wendy has successfully led cross-functional teams within complex, challenging projects to meet requirements of multiple stakeholders. She is highly skilled in developing strategic plans and implementing solutions that meet immediate and long-term growth objectives across verticals and industries. Industries include: Pharma and Medical Devices, Financial Services/insurance, Chemical, Manufacturing, Logistics and High tech.

Portfolio of Achievements includes Highly Successful Enterprise Application Integration, Large enterprise Asset and Configuration management, APM, Global Business and Supply Chain Process Optimization, Offshore Resource Expansion, Global Operations, CMM/Best Practices Implementation, New technology / market evaluation, Start-Up and Turnaround Leadership, and Multimillion-Dollar Cost Savings.

Wendy has a Bachelor of Science in Management & Technology, a Bachelor of Arts in Political Science and an MBA from the Weatherhead School of Management. She has also authored numerous white papers. In addition, Wendy serves on the advisory board of several companies including Talenta Global, 1847 Inc., and others.

Marvin S. Goldsmith

Goal: To apply my diverse background and experience to the opportunities and challenges of the BBCA and, as a Board member, work together to exceed the expectations of the homeowners.

Profile: A business career that combines a unique blend of client, advertising agency and consulting experience with a concentration in consumer products, supermarket retail and food service/restaurants. The major areas of experience emphasize deep involvement in strategic planning, marketing, merchandising, operations and financial planning. Consulting clients have enjoyed the benefit of “hands on” experience and the ability to apply a total approach to each assignment.

A personal commitment to civic, community and charitable organizations including 36 plus years, still serving, Trustee and member of the Executive Committee for Chicago Public Television-WTTW, Bonita Bay Club House Committee, President of 1000 Condo Association in Chicago (55 story/132 unit building). Resident of Bonita Bay since 1990.

1994-Present: Marketing That Works, Inc.-A consulting company, celebrating its 19-year anniversary, specializing in long range strategic planning, annual business and marketing plan development/implementation and facilitative leadership. Client assignments include Retail Food Chains, Chain Restaurant Group, Consumer Food Products, Engineering Co.

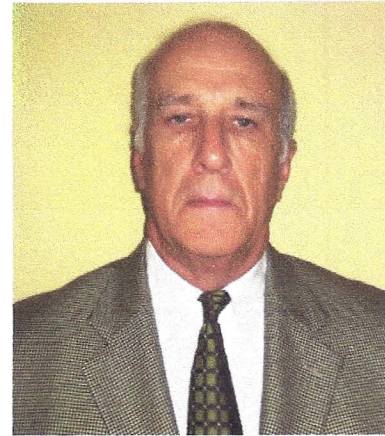

1972-1994: Campbell Mithun Advertising Agency-The 25th largest advertising agency whose major clients included The Kroger Co., an array of business to business clients and a separate Food Service specialty group. Assignments included SVP/Account Service responsible for approximately 75% of the agency’s billing, President/Vice Chairman, Member of the BOD and Chairman of the Profit Sharing Investment Committee.

1969-1972: M. Loeb Corporation-Wholesale Grocery Company serving IGA supermarkets, 7-11 convenience stores and Independent Supermarkets-General Manager

1967-1969: Dean Foods Company- Developed a wholly owned subsidiary convenience stores start-up. Directed store design, marketing/merchandising and operations.

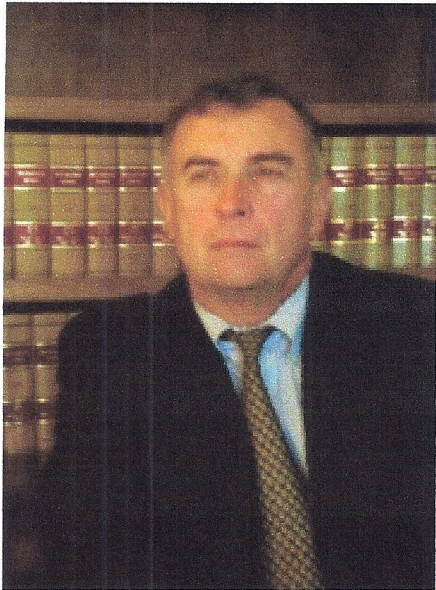

1957-1967: The Kroger Co., Director of Merchandising, Operations Manager, Buyer-Merchandiser, Advertising Manager

Education: University of Wisconsin-BBA-1957
Northwestern University-Graduate Studies-1960/1961

JOHN MASSEY

I am a licensed civil engineer and surveyor and have for the past 40 years been involved with more than 300 significant hospital projects within 35 states. I have been responsible for three companies that I have been president of and more specifically my duties are related to land acquisition, land use, zoning, variances, wetland identification and mitigation and associated governmental interaction and approvals and infrastructure construction. I am semi-retired and I have been a president of a homeowners association before and have been responsible for dealing with day to day issues that arise. Although we have not owned in the Bonita Bay for a long period of time, we intend to be full time residents and make Esperia our home. I think my long term leadership and professional experience makes me uniquely qualified to serve on the board.

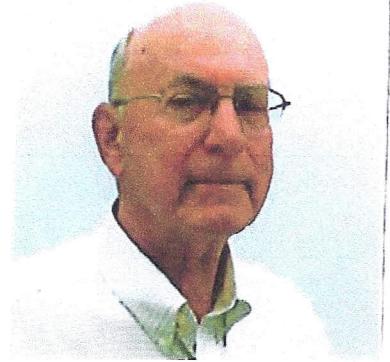

Bruce E Mohl

I have an undergraduate degree from Hamilton College and a law degree from Boston University School of Law. I practiced law in Massachusetts and New Hampshire for 16 years, most of that in complex litigation on behalf of state government, involving constitutional issues, regulatory law and statutory interpretation. I served as New Hampshire's Deputy Attorney General, and in that capacity I was counsel to the Governor of New Hampshire in litigation involving numerous issues related to the Executive Branch of state government and defended the state in complex matters in federal and state courts at the trial and appellate level. I was appointed to the New Hampshire Superior Court in 1988 by then Governor John Sununu. I served on that court full time for almost twenty years, handling felony criminal cases, including First Degree Murder charges, and a wide variety of complex civil matters. I continue to serve today as a Senior Justice on the Superior Court where I sit as a trial judge from time to time when I am in New Hampshire. I retired as a full-time judge in 2007, and started a private Mediation and Arbitration Practice and continue that practice today, resolving disputes for parties involved in civil litigation.

In 2009 I joined the Bonita Bay Homeowners Transition Committee which sought to secure for the Bonita Bay community the transition of control of the Bonita Bay Community Association (BBCA) from the developer to residents. As a member of the Committee, I was the lead negotiator for over a year and a half of negotiations with Bonita Bay Group to rewrite the governing documents for Bonita Bay which led to the election of a resident BBCA Board and the successful turnover of the community in June 2011. In May 2012, the new BBCA Board asked me to complete the term of a Board member who resigned, and I have served as a BBCA Director since that time. In that capacity I worked with our counsel and successfully negotiated with Bonita Bay Group a resolution of the then pending trademark lawsuit that BBG had initiated against the Community Association and have been actively involved in a number of other issues. Given my legal and judicial background I have worked closely with BBCA counsel on multiple issues facing the Association since turnover. I have also been a member of the Bay Pointe Condominium Association Board since 2011.

As the BBCA Board, homeowners elected by homeowners, continues its assumption of the leadership and direction of the Community Association, we face a series of opportunities and challenges going forward. The remediation of the conditions of our lakes, those owned both by the Association and individual communities, will be a long range, challenging project on which we have made a very good start. We need to continue our efforts to determine if, in the long run, the marina can become part of Community Association assets, or, if not, to develop policies to insure that the Bonita Bay community remains a private gated community. As a Board we need to support our very dedicated management and staff in their efforts to maintain and improve our community. They are what have made this community what it is today. We will continue to have an ongoing relationship with Bonita Bay Group going forward, over its development of its limited remaining property in Bonita Bay, and as a Board, we need to be vigilant in protecting the interests of homeowners as that development progresses. We must aggressively pursue the Bay Woods II voting dispute with Bonita Bay Group over its voting power, a holdover issue that was unresolved during turnover. And we have a responsibility to develop appropriate and cooperative relationships with the individual communities in Bonita Bay and with the Bonita Bay Club, which is such an important and vital part of the community.

Resume for BOD nomination for **John J. Nemsick**,
27351 Ridge Lake Court; Ph. 239-498-7979

Ed: BSCE University of Illinois; MBA University of Chicago

Career: 1960-1966 U.S. Steel Corp (management); 1966-1996 General Foods/Kraft Foods (experience as Project Manager, Purchasing Manager, Division & Corporate Logistics Planning Director, retired as V.P. Logistics/Purchasing Kraft Foods Int'l.)

Qualifications: Member of BBC since 2000; resided in Bay Pointe until we purchased our home in River Ridge in 2005 & became full time residents in 2008; served on Bay Pointe Board 2001-2003 & on BBC Golf Committee 2005-2008. River Ridge co-rep. for TOC. Taught International Business/Management at both Pace University & Mercy College in NY after retirement from 1996-1999.

Bonita Bay became our home because we loved the environment it presented, the people we met & the facilities at hand. I want to work towards restoring BB to what brought us here; (i.e.), the intangibles of friendship, attitude & serenity when needed! I pride myself on my ability to listen to alternative solutions to issues & then act to correct those problems. BB is on the road to being restored as a top notch facility and that can be furthered by making a community which not only looks beautiful, but also provides facilities & staff to enable enjoyment of the resources. In my career, I went through several major corporate reorganizations and understand the conflicting mores which surface as well as the need for unity to keep striving for the overall goal. The BBCA is in a reorganizational situation which has to define its long term structure. A successful organization must operate within its budgetary constraints and plan funding for future known and unknown needs; as a Board Member I would constantly work to develop and maintain those goals(budgetary & planning). A well run community will attract and retain members who have pride in ownership and, through its reputation, continue to make it a special place. My goal on the BOD would be to re-achieve that status for Bonita Bay.

JAMES A. WURSTER

In the fall of 2012, my wife, Sarajane and I became permanent residents of Bonita Bay. We had been life long residents of Indianapolis, IN. Between us we have five loving children and seven wonderful grandchildren - all of which we are very close to. Prior to coming to Florida to vacation, we were avid skiers and enjoyed Snowmass, Colorado for 25 years. When we came to Florida, in 2006, we became golf members of BBC as well as being very involved with the BB tennis program.

Upon graduating from Purdue University, BSCE, in 1959, I worked for various consulting design engineering companies, before starting my own company with one other partner in 1966. Our company experienced steady growth throughout its history, earning respect of its peers in the consulting engineering community. In 2006 I retired. The company had grown to over 300 professionals in the 40 plus years I was involved. Transportation was our major field; additionally, we offered services in site design, civil engineering, architecture, surveying, environmental, structural, forensic investigations, construction inspection and IT development.

I was a licensed Professional Engineer in 22 states, Registered Architect in 4 states, NCARB certified, Registered Land Surveyor, and Registered Structural Engineer. I served as President of Indiana Consulting Engineers Council, and represented Indiana on the national council's Board; a Fellow in American Society of Civil Engineers, a Board member of The Snowmass Resort Association for 8 years; am currently on the BOD of Augusta Creek, HOA, a member and president of the Lake Clearwater Lake Association for 23+ years (a 120 acre, deep lake in urban Indianapolis). I also currently serve on BBCA's Design Review Committee.

Relative to the BBCA, I certainly have interest in all of their responsibilities; however, I have a deep interest four specific arenas: 1.) The north entrance @ US 41, 2.) Obtaining ownership/control of the Marina and Backwater Jack's, 3.) Maintaining environmental integrity of the "Lakes" situation, and 4.) Maintaining the excellent standards of our community's infrastructure and ambience.

I have over 50 years experience that can be relative to the following that I can bring to the BBCA's BOD -- including, civil engineering, architecture, understanding the wants of Highway Departments, City and County various governmental entities, infrastructure environmental permitting, roadway, bridge design/maintenance, traffic problem considerations, storm water detention facility design/maintenance
